

RESOLUTION
of the
MANAGEMENT COMMITTEE
of
LAKE WALLKILL COMMUNITY, INC.

WHEREAS, Article VII, Section 10 of the by-laws, provides that the Management Committee is the legislative and policy making body of Lake Wallkill; and

WHEREAS, Article II of the by-laws states in part *“The purposes for which it is formed are: to acquire, hold, own and provide for the care, maintenance and control of the roads, parks, dams, beaches, lakes and waters and streams connected therewith”*; and

WHEREAS, the Rules and Regulations Article XIII, Section 1, reads: *” Members are advised to periodically pump their septic/sewerage systems. Frequency is dependent upon the number of people using the system, the age of the system or use of washing machines and dishwashers. In any event, septic/sewerage systems shall be pumped, at a minimum, every three years and proof of same must be filed at the office within 30 days. Effective 1 January 2008, failure to provide adequate documentation will subject the home owner to the assessment of non-pumping fee in accordance with the annual fee structure schedule.*; and

WHEREAS, the Management Committee has a specific interest in maintaining an appropriate water quality that supports the recreational use of Lake Wallkill and acknowledges that non-functioning and/or inadequately maintained Septic Systems contribute nutrients to runoff that ultimately flow to Lake Wallkill. Increased nutrient loads raise the probability for vegetation and algae growth to the detriment of recreational uses of the Lake.; and

WHEREAS, the Management Committee has a responsibility to effectively enforce the Rules & Regulations of Lake Wallkill will set a non-pumping fee and update the Schedule of Fees beginning in 2023; and

WHEREAS, the Management Committee will set an implementation plan for the charging the non-pumping fee as well as communicating terms that define compliance for varying types of septic systems; and

WHEREAS, the Management Committee, has determined that it is in the best interests of Lake Wallkill and the entire Lake Wallkill Community that this resolution be made to set the non-pumping septic fee on the Schedule of Fees; and

NOW, THEREFORE, BE IT RESOLVED by the Management Committee that proposed non-pumping septic fee be established as follows:

1. The Non-Pumping Septic Fee shall be \$350.00 (subject to updates by the Management Committee at the Annual Budget Meeting)
2. Income from the Non-Pumping Septic Fee shall, annually, be reserved on the Balance Sheet for use in funding Lake Water Quality Improvement Projects.
3. The Rules and Regulations require the pumping of septic systems at a minimum every three (3) years. All members are encouraged to assess their properties septic system and the use of that system (# of people, appliances connected (dishwashers, washing machine, etc.), Year-round vs Seasonal) in determining a frequency shorter than three years if appropriate.
4. Members are required to submit documentation of their compliance to the Office in the form of a hard copy or a scanned copy via email. This should be in the form of a copy of the receipt for pumping or other documentation appropriate for your type of septic system (see types below)
5. This septic pumping policy is intended to be current with new technologies for managing septic waste. The following examples are detailed for clarity:
 - a. Older Systems characterized as less than 500-gallon tank and limited leach field. Should only be for limited seasonal use and inspected to insure proper functionality. Compliance to the policy requires documentation of pumping a minimum of every three (3) years.
 - b. Traditional Septic systems consisting of a 500-1,000 (or larger) gallon holding tank and a leach field utilizing lateral leaching pipes or a leaching tank. Compliance to the policy requires documentation of pumping a minimum of every three (3) years.
 - c. Holding Tanks that require pumping each time they are full. Would typically require pumping more frequently than every three (3) years. Properties with holding tanks can supply documentation for their pumping at a minimum of every 3 years.
 - d. New Technology Septic Systems that are characterized as requiring an annual maintenance agreement (enforced by the County Board of Health). These systems should supply a copy of their inspection report indicating a pumping is not required and/or a receipt for pumping as applicable at least once every three (3) years.

IMPLEMENTATION:

The Management Committee shall include a Non-Pumping Fee on the Schedule of Fees for the Budget Year 2023; however, no Non-Pumping Fees will be charged in the calendar year 2023. Members are strongly encouraged to have their Septic Systems pumped during this grace period especially if they have not been pumped in the last three years.

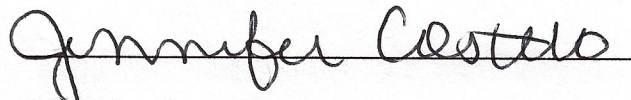

In September of 2023, Lake Wallkill Community INC shall send written notice to all property owners that are in a non-compliant state as a reminder that they have not submitted documentation to comply with the septic pumping rules and to inform them that the fee will be assessed if they are not compliant by the end of 2023.

At the end of 2023, all member accounts will be evaluated for compliance to the Septic Pumping requirements. Any property that has not submitted documentation as outlined in Section 4 & 5 of this resolution shall be assessed a Non-Pumping Fee and added to the 2024 Dues Bill.

The Non-pumping fee shall be applied annually, each year a property is in a non-compliant state (which could be for 2 or more consecutive years).

This resolution shall apply to all properties in Lake Wallkill that have a septic tank/system including seldom used or vacant properties

ADOPTED this Saturday, May 28th, 2022 by the Management Committee of Lake Wallkill Community, Inc., in the presence of a quorum.

Jennifer Costello
