General Membership Comments:

Denise DeSimon - 92 Lakeside Dr – Swim season has started. First home meet is July 16th. Docks are very slippery when they get wet is there anything that can be done? Swim team were sent several options and need to decide how to proceed.

G Brusco 57- Lakesdie Dr Lake will be lowered next time in 2021? Yes in 2018 and lowered every 3 years based on the recommendation from Aquatics Co. Years ago there was an aerator in the water. Any thoughts on putting it back in? There are differing opinion. There was a time where there was insufficient oxygen in the lake because of the algae issue. Do not have that problem today. Bob M will ask Larry @ Aquatic.

Are we organizing a community day to test well water in lite of the dumping at Silver Spruce? There is a company offering free testing – Agra.

Town is currently suing to test the soil at the dump site. Houses closest to Silver Spruce have tested and their water has come back normal.

Bathing water is tested to state standards on a regular basis. We can test the lake drinking water. Bob asked for a motion from the management committee to test the drinking water. Mike motions, Peggy seconds. Motion passes.

Fran O'Leary – 64 Lakeside Dr.

Suits against Mr. Wallace criminal or civil the AG would be most responsive.

Lillian DeSimon – 92 Lakeside Dr – Great to see new speed bumps have been installed/ Old ones need to be painted and need signage. Shawn has the signs and they will be installed.
